

Starting where your boat is depicted on the worksheet, draw a realistic and efficient sailing course taking you past buoys #1, #2, and #3 in that order, leaving each buoy on the port side of your boat.

On each leg, label:

- (1) Point of sail;
- (2) Which tack boat is on.

Label all tacks and gybes!

Scenario 1: wind comes from A
Scenario 2: wind comes from B
